**FOR IMMEDIATE RELEASE**

January 2016 | Wylie, Texas

**New LED Angle Lights from Nightstick® Add Wide Reaching Floodlight to Lifesaving Firefighting Equipment**

**Additional standard features include low battery indicator, multiple power options, and 3.5 day Survival mode increase safety at affordable price**

Bayco Products, Inc has introduced three new Nightstick® branded Intrinsically Safe Class I, Division 1 Angle lights that offer more standard lifesaving features and functions than existing angle lights currently offered in the market today. New models: XPP-5570R, XPR-5572R, and XPR-5572RM now available for global sale.

Each new Nightstick angle light model is cULus and MSHA certified Intrinsically Safe Permissible, water-rated as IP-X7 waterproof and meets requirements of NFPA-1971-8.6 (2013). Made from durable glass-filled nylon polymer, these individually serialized angle lights feature a heavy-duty stainless-steel pocket clip that eliminate slippage when attached to a firefighter's jacket or respirator pack and include a top-mounted visible low-battery indicator that illuminates in low battery situations.

All three Nightstick angle light feature 3 user-selectable flashlight settings of 200, 100 and 60 Lumens plus a strobe feature with a 267 meter beam distance. The ultra-tight beam is perfect for cutting through smoke and lighting up objects at great distances while the floodlight setting (separate independent switch) has 3 user-selectable brightness settings of 200, 100 and a "Survival Mode" of 20 lumens that provides just enough light in an emergency situation with a run-time of 3.5 days. Turn both the flashlight and the floodlight simultaneously in Dual-Light mode allows users to see objects at a distance or through the smoke, as well as see the ground in front of them as they walk or work, increasing safety and convenience. Nightstick's innovative Dual-Light technology is a first to the angle light product line and is one of eight available modes to choose from.

Additional specifics and contents of each angle light in the series are as follows:

**XPP-5570R Intrinsically Safe Dual-Light™ Angle Light – 6 AA**

- Package includes light, AA battery carrier and 6 AA batteries
- Upgradeable to rechargeable by adding optional lithium-ion battery pack and charger
- Average Retail Price starting at \$59.95

**XPR-5572R Intrinsically Safe Dual-Light™ Angle Light - Rechargeable**

- Package includes light, rechargeable lithium-ion battery pack, wall or vehicle mounted charger, AA battery carrier (AA batteries not included), and AC & DC power supplies
- Average Retail Price starting at \$99.95

**XPR-5572RM Intrinsically Safe Dual-Light™ Angle Light w/Magnetic Base - Rechargeable**

- Multi-Angle Magnetic Base uses rare-earth magnet with rubber protective coating on gimbal head to place light exactly where needed without interference
- Package includes light, multi-angle magnetic base, rechargeable lithium-ion battery pack, wall or vehicle mounted charger, AA battery carrier (AA batteries not included), and AC & DC power supplies
- Average Retail Price starting at \$124.95

---

“We added a wide-reaching floodlight, an enhanced stainless-steel clip and a low-battery indicator, while extending run-times on multiple power platforms. These additional features and innovative functionality are like a breath of fresh air to firefighters and first responders who depend on the safety and performance of their equipment in the darkest of hours” says Russell Hoppe, Marketing Manager for Nightstick. “Angle Light are not new products, but the way that we designed our Dual-Light™ angle lights is just another example of how Nightstick is delivering our brand promise to make life saving products that are Tough, Durable, Affordable™.” To learn more, please visit [www.mynightstick.com](http://www.mynightstick.com).
