**FOR IMMEDIATE RELEASE**  
September 2015 | Wylie, Texas

## **More Brightness, Better Runtime and 3 Magnets Hallmark Bayco Products New Nightstick® LED Work Light**

**Rechargeable, dual-brightness to 600 lumens, integrated magnets and more make this light an easy choice**

Bayco Products, Inc. has announced their newest Nightstick [NSR-2168B](#) (black polymer body) and Nightstick [NSR-2168R](#) (red polymer body) Multi-Purpose LED Work Lights that boast new and innovative features to help make it a best choice in LED Work Light category. Featuring a rechargeable integrated lithium-ion battery for extended runtime without expanded size or adding significant weight, 20 high capacity LEDs (high mode) deliver a whopping 600 lumens for up to 4.5 hours per charge. The single push button body switch located on the handle controls a second low brightness mode producing 225 lumens for up to 12.5 hours. Included as standard equipment are both the AC and DC power supplieschargers.

This versatile work light also does more to lend a hand at freeing up hands with three integrated magnets (top, bottom and side) conveniently and strategically located to easily attach to a variety of metallic surfaces independently or with the assistance of the included detachable magnetic hook. A flat bottom allows this wand style light to stand independently on a level surface while its octagonal body is intentionally designed to resist rolling while keeping the floodlight aimed in the correct direction when laying the light on its side.

Drop-rated for 2 meters, water rated as IP-X4 water-resistant, and chemical-resistant, this light also features a replaceable lens for continuous use for years, not months of use. Nightstick Marketing Manager Russell Hoppe describes the enhanced benefits of the 2168 this way; "Durability, reliability, and affordability are three core benefits that Nightstick delivers with today's announcement of the new 2168 Multi-Purpose LED Work Lights. By listening to our users and spending time in the trenches, our team put together a staggering 600 lumens innovative lighting solution that can be rotated 360 degrees, functions at peak performance using leading lithium-ion rechargeable technology, at an average retail price of only \$42.95. If there has ever been a work light that delivers quality and performance at an affordable price, the Nightstick 2168 is your professional tool of choice."
