## FOR IMMEDIATE RELEASE

August 19, 2014 | Wylie, Texas

### NEW NIGHTSTICK® FULL-SIZE DUAL-LIGHT AN INDUSTRY FIRST

#### Exclusive Full-Size Dual-Light Eliminates Wrong-Light-Type Issues for Users

Bayco Products, Inc. announces an innovative new addition to its line of NIGHTSTICK® brand of problem-solving lighting products, the industry-first full-size Nightstick **NSR-9744XL** Metal Multi-Function Rechargeable Dual-Light™ – also the newest in the expanding Xtreme Lumens (XL) product portfolio.

The Nightstick NSR-9744XL Dual-Light gives users two independent lights in a single case with two separate switches. They can use turn on and off a 650-lumen sharp-focus long-reach flashlight beam with a throw of 275 meters (902 feet) and a bright 600-lumen area flood light to illuminate immediate surroundings. The flashlight can support high, medium and low brightness levels with longer runtime at the lower levels as well as a disorienting strobe.

This combination light optimizes safety and versatility with the added benefit of rechargeable power so batteries are not a continuing cost of ownership. CREE® LED emitters offer a 50,000+ hour operating life so bulb replacement needs also disappear.

“We design Nightstick Dual-Light products to change the way you use lighting forever,” says Nightstick Marketing Manager Russell Hoppe. “Real life circumstances sometimes make a flashlight a better choice and sometimes make a floodlight a better choice; with a Dual-Light they don’t need to make a choice because they always have both.”

The NSR-9744XL comes with the same industry-leading durability and reliability assurance as all Nightstick products. Its housing, bezel, and tail-cap are made from aircraft-grade 6061-T6 aluminum. The housing, tail-cap, and bezel all have a Type III hard anodized finish. Its non-slip grip, IP-X7 waterproof rating, and impact and chemical resistance ensures a long life of lighting up the dark.

The NSR-9744XL is serialized for personal identification, and includes the lithium-ion rechargeable battery, charger, AC & DC power supplies, and anti-roll ring.
