FOR IMMEDIATE RELEASE

October 14, 2014 | Wylie, Texas

**New Nightstick® 2166 Multi-Purpose Rechargeable Work Lights
Add Convenience to Task Illumination
Magnets, a removable hook and anti-roll features add to its usefulness**

Bayco Products, Inc. announces a new rechargeable wand-style LED work light to its Nightstick brand of professional lighting tools that feature several smart innovations making it convenient and easy to get work done with its assistance.

The Nightstick 2166 has a 14.3"-long housing that smartly incorporates two different styles of lights into one product. A 6-LED spotlight located in the handle base is useful for locating small objects utilizing a narrow beam of light, while the 230-lumen 60-LED floodlight array along the wand is a very effective at providing broadly directional area light. The per-charge runtime for the spotlight alone is 18 hours; it's 3 hours for the floodlight. The included AC & DC power supplies/charger and detachable magnetic hook add an additional level of convenience and usefulness of selectable illumination regardless of the task.

There are two magnets integrated into the light body. One is at its midway balance point, the other at the tip of the light. The magnetic removable hook can be placed in either position providing limitless 360 degree hands-free rotation. The flat-bottom design of the handle means the light will stand up on most flat surfaces, and the octagonal shape to the handle keeps the floodlight aimed in the correct direction when you lay the light on its side.

"The 2166 is the quintessential work light of the pragmatic professional" says Russell Hoppe, Marketing Manager for Nightstick. "We've taken the durability and convenience synonymous with our Nightstick brand and added multiple hands-free magnets and a dependable rechargeable battery to create a higher standard in task illumination. The 2166 combines the practicality of a spotlight and the breadth of a floodlight with an industry low price point to be the sole work light by which every other professional LED work light will be judged."

There are three body color options to choose from all with an average retail of \$39 - yellow ([SLR-2166](#)), black ([NSR-2166B](#)) and red ([NSR-2166R](#)). All three models are shipping and available now.
