**FOR IMMEDIATE RELEASE**

September 9, 2014 | Wylie, Texas

**NEW NIGHTSTICK® TAC-560XL TACTICAL FLASHLIGHT OFFERS MORE  
OF WHAT REALLY MATTERS**

**800 Lumen Rechargeable LED Flashlight Includes All the Extras**

Bayco Products, Inc. is proud to announce their newest Nightstick® Xtreme Lumens (XL) family member, the [TAC-560XL](#) Metal Multi-Function Rechargeable Tactical Flashlight.

With an ANSI rating of 800 lumens and producing 10,765 candelas, users are given a choice of momentary or constant-on functionality, plus user selectable high, medium, or low-brightness settings, in addition to a disorienting strobe. Using a CREE® LED emitter paired with a high-efficiency deep parabolic reflector, this high-powered tactical flashlight produces a sharp-focus beam of 205 meters (more than 670 feet) that clearly puts the user in ultimate control of their own situational lighting needs.

Powered by an industry leading lithium-ion rechargeable battery (included), the Nightstick TAC-560XL comes equipped with a wall mountable/vehicle charger, and both AC and DC power supplies—removing the need to purchase additional accessories. Also included standard is a CR-123 battery carrier that holds a pair of CR-123 batteries (not included) as a convenient secondary power option.

The TAC-560XL housing, bezel and tail-cap are all constructed from aircraft-grade 6061-T6 aluminum with Type III hard anodized finish and is rated IP-X7 waterproof. Each housing is individually serialized for personal identification, is impact and chemical resistant and features a non-slip grip with large textured tail-switch for ease of use.

“When it comes down to performance on a budget, the TAC-560XL just offers users more of what really matters,” says Nightstick Marketing Manager, Russell Hoppe. “Whether it’s 800 Xtreme Lumens, a high candela, the reliability of a lithium-ion rechargeable, multi-mode lighting options, or not having to pay for optional accessories, it’s just not accurate to say the TAC-560XL has all the extras when, in fact, all these are included as standard features.”
