Nightstick Grows Compact, Long-Gun Weapon Light Lineup
*Adds two new remote pressure switch models TWM-354 and TWM-854XL
for rifles/carbines*

[Check out the installation VIDEO](#)

Wylie, Texas – September, 2018 - Nightstick, a global manufacturer of innovative, professional lighting products is pleased to announce two new additional long-gun exclusive *Tactical Weapon Mount* models, TWM-354 and TWM-854XL. Both weapon lights feature a remote dual-function pressure pad switch and eight-inch cable that provides flexible mounting options.

Nightstick model [TWM-854XL](#) features a 850-lumen output rated for 1.75 hours, illuminating objects up to 245 meters (803+ feet) away. Nightstick [TWM-354](#) features a 350-lumen output rated for 2.5 hours, illuminating objects up to 215 meters (705+ feet). Weighing in at only 4.5 ounces, constructed of aircraft-grade aluminum and rated as IP-X7 waterproof, these new weapon lights are ideal for use on rifles and carbines. Featuring the universal MIL-STD 1913 Picatinny rail system and sharing the same engineering for robust performance, users can now get peace of mind already established across the Nightstick TWM lineup.

“A natural extension of our TWM-dedicated weapon lights, we designed the TWM-354 and TWM-854XL to provide modular, flexible lighting and switch mounting on any Picatinny-railed handguard. This dedicated format allows owners to create a very personalized, ergonomic long gun light setup,” says Russell Hoppe, Marketing Director for Nightstick. “Leveraging the robust aluminum construction and high performance of our LED-equipped [TWM-350](#) and [TWM-850XL](#) handgun models, we created these two newest weapon lights to provide rifle and carbine owners a powerful, lightweight and low-cost solution for immediate target and background identification *when life depends on light™*.”

Designed for maximum installation flexibility, our remote pressure switch can be mounted to any rail with the included NS-PIC1 rail connector, or seamlessly integrated into a Tango Down™ vertical foregrip using its built-in pressure pad insert slot.

The TWM-354 and TWM-854XL weapon lights come pre-configured out of the box with a pair of cross-rail inserts and are both backed by a limited lifetime warranty. Contents include a dual-action pressure switch with eight-inch cable, two spare cross rail inserts and cap head screws,

Allen wrench, NC-PIC1 Picatinny rail connector, Velcro & alcohol pad and two CR123 lithium batteries. To learn more, please visit www.nightstick.com.
