Xtreme Lumens™ Metal Multi-Function Duty/Personal-Size Dual-Light™ Flashlight w/Magnet Rechargeable

MARKET APPLICATIONS	Industrial, automotive, law enforcement, fire & rescue, security, hardware/tool
DESCRIPTION	This duty/personal-size rechargeable metal multi-function Xtreme Lumens™ Dual-Light™ flashlight uses a CREE® LED rated at 650 lumens that works in conjunction with a high-efficiency deep parabolic reflector to create a usable beam rated at 275 meters. A 200 lumens unfocused floodlight is integrated in to the housing which is perfect for close-up illumination. Additionally both the flashlight and the floodlight can be turned on at the same time for maximum safety and versatility. The flashlight body switch provides momentary or constant-on functionality, a set of user-selectable high, medium or low-brightness settings as well as a disorienting strobe. The second body switch operates the floodlight. The powerful magnet built into the tail-cap provides for hands-free use. The housing and tail-cap are made from aircraft-grade 6061-T6 aluminum and bezel is constructed from 316 stainless steel bezel. The housing, tail-cap and the bezel have a Type III hard anodized finish. Power comes from a rechargeable Lithium-ion battery. Meets requirements of NFPA-1971-8.6 (2013).
