MARKET APPLICATIONS

DESCRIPTION

This compact rechargeable multi-function polymer Xtreme™ Lumens tactical flashlight uses a CREE® LED rated at 800 lumens that works in conjunction with a high-efficiency deep parabolic reflector to create a usable beam rated at 205 meters. The tail-cap switch provides momentary or constant-on functionality, a set of user-selectable high, medium or low-brightness settings as well as a disorienting strobe. The housing is made from Glass-filled Nylon Polymer and the tail-cap is made from aircraft-grade 6061-T6 aluminum with a Type III hard anodized finish. Power comes from a rechargeable Lithium-ion battery and includes the ability to run from a pair of CR-123 batteries (batteries not included) thanks to the CR-123 Battery Carrier (included). Meets requirements of NFPA-1971-8.6 (2013).
